

Welcome to RMR!

(Rappahannock Model Railroaders)

The **Mission** of the Rappahannock Model Railroaders, Inc., a nonprofit organization, is to reach out to the general public at Private and Community Events to share the rewards and enjoyment of Model Railroading with kids of all ages through workshops, seminars and operating displays.

Our **Vision** is to increase awareness in our community on the history of railroading in America to include model railroading and the enjoyment of collecting and operating toy trains.

RMR Membership is open to all persons who are interested in O, HO or N gauge railroading.

Dues are \$85.00 per year & include spouse and children.

RMR holds **Monthly Meetings** on the First Thursday of each month.

Rappahannock Model Railroaders, Inc.

is an IRS-approved 501(c)(3) tax-exempt organization.

*Donations to **RMR** may be Tax Deductible.*

Club Members are drawn from the **Greater Fredericksburg** and surrounding Virginia area. We are available to support your Private or Community Event or Activity.

**Model Railroading
for Kids of
All Ages & Skills**

Our Clubhouse

RMR maintains a permanent fixed 430 sq ft **O & S gauge** (the upper level has O&S dual gauge track) layout in our clubhouse. The perfect solution for those who do not have the room at home for a proper layout but are interested in the hobby.

RMR also has **O-Gauge Modular** and table-top layouts which are used at public events. Members adopt (or build) modules and then decorate to their limit of interest. Decorations range from basic houses and some loose scale automobiles to mountains, trestles, and streams. Together with the club owned modules the modular layout can reach 20' x 40'.

RMR built a Modular **HO 6' x 14' Layout** of 8 modules. After laying track and wiring the modules for operation, we look forward to getting to work on decorating and scenery. The modules follow the National Model Railroad Administration (NMRA) standards so that they are compatible with modules from other HO clubs. We also plan to install a small 4' x 8' HO layout in the clubhouse.

N-Scale T-Trak is a Modular Model Railroad system based on international standards for module size, track placement, track interface, and electrical connections. **T-Trak Layouts** are intended to be assembled on tables. The flexible modular design allows tailoring of each configuration to the available space. RMR has Individually built modules that connect with other modules built to the T-Trak specifications to form the RMR layouts.

Our Meetings

Visit our monthly **6:00 pm** meetings on the **First Thursday** of each month at

Salem Church Library

2607 Salem Church Rd,
Fredericksburg, VA 22407

Premier Events
